

Ashok M

DATA SCIENCE & FINTECH ANALYTICS CONSULTANT (CA, CFA, PHD SCHOLAR)

EDUCATION Phd Scholar, Economics CFA Charterholder (CFA, US) Chartered Accountant (CA) MA Economics MBA (Finance) BCom	PURPOSE Seasoned financial technologist, researcher, and educator with over 20 years of experience bridging quantitative finance and advanced data analytics. Expert in Python, R, and econometric modeling, with a proven track record in financial simulations, machine learning instruction (Learnbay), and Fintech curriculum design. Transitioning deep domain knowledge into high-impact IT consulting and analytical systems engineering.
CERTIFICATIONS - AI Agent Workflows Using LangGraph (Great Learning, 2026) - AI Fluency: Frameworks (Anthropic, 2026) - Introduction to JavaScript (Great Learning, 2026) - C for Beginners (Great Learning, 2026) - Python for Everybody (Michigan / Coursera) - Applied Econometrics (BASE & RVU, 2025)	TECHNICAL & ANALYTICAL SKILLS - Programming & Data: Python (Pandas, NumPy, Scikit-Learn), R, C, SQL - Data Science & ML: Predictive Modeling, Regression, Decision Trees, Time-Series Analysis - Fintech & Quantitative Systems: Algorithmic Modeling, Granger Causality, Panel Simulations - Data Visualization: Matplotlib, Seaborn, ggplot2, Excel Analytics - Core Domains: Corporate Finance (CA/CFA), Banking, Portfolio Analytics, Auditing Compliance
TEACHING EXPERIENCE Data Science Instructor Learnbay & ExcelR (2022-2023) - Mentored 200+ students in R, Python, stats, and Machine Learning algorithms (decision trees, EDA). Visiting Faculty CHRIST (Deemed) University (2024) - Delivered MBA FinTech modules: Digital Payments, Data Finance, and Blockchain Technology. Visiting & Adjunct Faculty R.V. University & Srinivas University (2025-Present) - Teaching Statistics for Decision Making and Ethical Foundations of Finance.	INDUSTRY EXPERIENCE Research Economist (Python/R Modeling) Stonelink Investment Labs Private Limited (2026-Present) - Designed and ran firm-level panel Granger Causality and econometric simulations to analyze market cycle dynamics. - Built automated data pipelines in Python for credit and liquidity analytics. Independent Financial Consultant & Director Mannheim Capital (2014-Present) - Engineered quantitative portfolio models and algorithmic asset allocation sheets for HNW clients (AUM 2Cr+). Medicount, RiverBridge, Wealth Advisors, CRISIL, Deloitte Senior Analyst & Audit Manager (2005-2014) - Led audit, due diligence, and financial statement extraction systems (Deloitte, CRISIL, RiverBridge).
LOCATION JP Nagar Phase 6, Bengaluru - 560078	COMMUNICATION Communicate complex economic and financial concepts clearly to students, investors, and professionals, bridging theory, data, and real-world decision-making.
